LE VAN KHOA

Frontend Developer (React.js / Next.js)

0766 772 215 • levankhoa2004@gmail.com • khoazandev.github.io/khoazandev • linkedin.com/in/khoazandev • github.com/khoazandev • Ho Chi Minh City

PROFESSIONAL SUMMARY

Fresh Software Engineering Graduate (2026) specializing in Frontend Development with strong algorithmic problem-solving abilities (Top 16 National Olympiad in Informatics). Proven track record through two internships at AdsAgency.vn and YOOT Edu, building 10+ production-grade, SEO-optimized, responsive websites. Proficient in React.js, Next.js, TypeScript, modern state management, and translating Figma design systems into pixel-perfect web applications.

EDUCATION

Ho Chi Minh City University of Technology (HUTECH) 2022 – 2026

Software Engineering | GPA: 3.3/4.0

Relevant Coursework: Data Structures & Algorithms, OOP, Database Systems, Web Development, Software Engineering

WORK EXPERIENCE

AdsAgency Vietnam Co., Ltd (AdsAgency.vn) Jul 2026 – Oct 2026

Web Designer & Frontend Developer Intern

- Designed UI/UX mockups and developed frontend solutions for 10+ corporate websites and campaign landing pages, ensuring high responsiveness across devices.
- Directly collaborated with 3 enterprise clients to gather requirements, crafted interactive Figma prototypes, and delivered final production websites on time.
- Maintained and refined existing client websites; optimized web performance (PageSpeed 85+) and on-page SEO structure to boost Google/Facebook Ads conversion rates.

Tech: Figma, HTML5, CSS3, JavaScript, TailwindCSS, WordPress, On-page SEO, PageSpeed Insights

YOOT Technology and Training Co., Ltd (YOOT Edu) Apr 2026 – Jul 2026

Frontend Developer Intern

- Engineered and optimized 20+ reusable UI components across 6 key learning modules on the YOOT Edu platform using React.js, TypeScript, and TailwindCSS.
- Integrated 15+ RESTful endpoints via Axios and Redux Toolkit; applied client-side caching to reduce course navigation latency by 35%.
- Participated in agile sprints, resolved 25+ UI defects, and achieved 100% viewport responsiveness, elevating Lighthouse Performance score from 68 to 88+.

Tech: React.js, TypeScript, TailwindCSS, Redux Toolkit, Axios, RESTful API, Git

FEATURED PROJECTS

SmartHire – Recruitment Platform Dec 2024 – Jun 2025

Frontend Developer | Team of 5 | Online Recruitment Platform

- Led frontend development translating Figma designs into responsive, accessible pages using Next.js, TypeScript, and TailwindCSS.
- Engineered an intuitive drag-and-drop Kanban board for applicant pipeline tracking and a live preview CV Builder (React Hook Form + Zod validation).
- Architected global state with Zustand to eliminate prop-drilling; implemented Role-Based Route Guards to safeguard HR and candidate portals.
- Integrated 13+ RESTful APIs via Axios with automated JWT refresh token interceptors for seamless session security.

Tech: Next.js, TypeScript, Zustand, TailwindCSS, Axios, React Hook Form, Zod

IELTS Mock Test & AI Platform Aug 2024 – Nov 2024

Frontend Developer | Personal Project

- Developed an SPA with a split-pane layout (independent scrolling), accurately simulating real computer-delivered IELTS tests.
- Implemented browser-based Speaking test recording via MediaRecorder API and getUserMedia, streaming compressed audio blobs with real-time waveform visualization.
- Integrated Google Gemini AI SDK for async Writing scoring, returning structured JSON Band Score evaluations and feedback.
- Optimized performance: resolved memory leaks in audio playback via useEffect cleanups, and wrote unit tests for scoring logic with Vitest.

Tech: React.js, Vite, Zustand, TailwindCSS, Vitest, Gemini AI SDK, MediaRecorder API

TECHNICAL SKILLS

Programming Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3, C/C++ (algorithms)
Frontend & Frameworks	React.js, Next.js, TailwindCSS, Responsive Web, Figma (UI/UX design, pixel-perfect slicing)
State Management & Libs	Redux Toolkit, Zustand, React Hook Form, Zod, Axios, RESTful APIs
Tools & Optimization	Git, GitHub, Postman, Vite, Vitest, Google Gemini AI SDK, On-page SEO, PageSpeed Insights

HONORS & AWARDS

Top 16 Nationally	Vietnam National Olympiad in Informatics for Students (PROCON Division)	2025
Consolation Prize	HUTECH PROCON Algorithmic Programming Contest	2025
Consolation Prize	Web & UI/UX Design Competition "Design Your Future" – CJ OliveNetworks Vina	2025

LANGUAGES

English	Intermediate (B1) – Capable of reading technical documentation and communicating in basic professional settings
Vietnamese	Native
